WALL & BLINDS

NUOVE IDEE PER REINVENTARE I VOSTRI SPAZI NEW IDEAS TO RECREATE YOUR SPACES

LIBERATEVI DALLE CONVENZIONI, NON ABBIATE PAURA DI OSARE E SPINGETEVI OLTRE I SOLITI SCHEMI CON QUALCOSA DI UNICO E RICERCATO A PARTIRE DAL DESIGN DEI VOSTRI INTERNI.

Chi l'ha detto che gli uffici debbano per forza avere pareti bianche e che il vostro salotto debba avere tende con colori neutri e tinte unite?

Per dare sfogo alla vostra immaginazione e permettervi di personalizzare i vostri ambienti domestici e professionali, abbiamo pensato di arricchire il nostro business con due nuove proposte: I TESSUTI MURALI E LE STAMPE PERSONALIZZATE SU TENDE A RULLO.

Tessuti e stampe vintage, moderne, stravaganti, o essenziali vi permetteranno ora di trasformare radicalmente i vostri spazi rispecchiando al meglio le vostre preferenze e il vostro stile di vita.

GET OUT FROM CONVENTIONS; DO NOT BE AFRAID TO DARE AND GO BEYOND THE USUAL PATTERNS WITH SOMETHING UNIQUE AND SOUGHT-AFTER FOR THE DESIGN OF YOUR INTERIORS.

Who said that offices must have white walls only and your living room must have curtains in soft colours?

We decided to enrich our business by creating two new ideas to help you giving credit to your imagination and let you customized your home interiors as you like: WALLCOVERINGS AND PERSONALIZED PRINTS FOR ROLLER BLIND SYSTEMS.

Vintage, modern, eccentric or essential wallcoverings and prints will let you totally change your spaces reflecting your preferences and your life style.

ESEMPIO DI TESSUTO RIPETIBILE
EXAMPLE OF REPEATABLE FABRIC

ESEMPIO DI TESSUTO SU MISURA
EXAMPLE OF CUSTOMIZABLE FABRIC

MATERIALI

Tutte le immagini esposte all'interno del catalogo possono essere realizzate su differenti tipologie di materiali.
I tessuti murali possono essere stampati su rivestimenti in Vinile o Filposé.
Il **vinilico** è composto da due parti: lo strato anteriore, stampabile, in PVC, e lo strato posteriore, in TNT.
Caratteristiche: ottima resa cromatica grazie alla sua superficie satinata, impermeabile, inassorbente e di facile manutenzione.
Larghezza pannello: cm. 134/65

Il **filposé** è un tessuto che nasce dall'accoppiamento di un supporto in TNT con filati di poliestere, lino, cotone, seta, etc in grado di arricchire e valorizzare qualsiasi tipologia di contesto.
Caratteristiche: lucentezza, piacevole al tatto, buona resistenza all'abrasione e alla luce, semplice manutenzione.
Larghezza pannello: cm. 100

Collezione Jacquard

La tecnica Jacquard deve il nome al suo inventore: Joseph-Marie Jacquard che inventò una nuova tipologia di telaio capace di realizzare tessuti con forme geometriche in grado di arricchire e rendere esclusivi ambienti senza appesantirli. Questo particolare rivestimento si ottiene accoppiando il tessuto Jacquard con uno speciale strato di TNT, che rende estremamente semplice la posa.
Caratteristiche: lucentezza, piacere al tatto e buona resistenza all'abrasione e alla luce.
Larghezza pannello: cm. 120

MATERIALS

All images shown in the catalogue can be printed on several different types of materials.
Wallcoverings can be printed on Vinyl or Filposé surfaces.
Vinyl is made of two elements: the front layer is made of PVC and is printable, the back layer is made of TNT.
Characteristics: very good chromatic effect thanks to the matt surface that is waterproof, unabsorbing and easy maintenance.
Width of the panel: cm. 134/65

Filposé is a fabric created from the matching of a TNT surface and polyester, linen, cotton, silk etc. yarns, that can enrich and enhance any type of context.
Characteristics: gloss, pleasant to the touch, good resistance to abrasion and light, easy maintenance.
Width of panel: cm. 100

Jacquard collection

The Jacquard technique owes its inventor the name: Joseph-Marie Jacquard who invented a new model of loom able to create fabrics with particular geometric shapes used to enrich and make exclusive environments. This particular covering is obtained by gluing the Jacquard fabric onto a TNT surface so that the installation becomes extremely simple.
Characteristics: gloss, pleasant to the touch, good resistance to abrasion and light.
Width of panel: cm. 120

La resa cromatica del prodotto finito può variare rispetto al colore delle immagini riportate a catalogo o a video.
The colors of the finished product can change compared to the color of the images printed in the catalogue or on the screen.
