## [ COMPANY PROFILE ]

SCAGLIONI SRL, AZIENDA PRODUTTRICE LEADER NEL SETTORE DI TENDE A TRAZIONE MANUALE E MOTORIZZATA.

L'esperienza raggiunta in oltre 30 anni di lavoro e l'impegno costante nell'evoluzione del mercato, hanno portato alla realizzazione di prodotti sempre molto competitivi ed innovativi che hanno fatto del marchio Scaglioni un sinonimo di qualità, design, tecnologia e affidabilità.

L'azienda condivide il suo vasto know-how e la rinomata esperienza con professionisti di tutto il mondo e soddisfa le loro esigenze, ispirati da innovazione ed esclusività, contribuendo attivamente a realizzare proposte architettoniche e d'arredamento d'avanguardia. Il marchio SCAGLIONI è presente con i propri prodotti in molti paesi del mondo, dove ha affermato il suo prestigio contribuendo alla realizzazione di progetti sia in ambito residenziale che pubblico.

La "Qualità" è alla base delle scelte aziendali in ogni fase lavorativa: partendo dal costante investimento nella Ricerca & Sviluppo, che garantisce innovazione e tecnologia, passando attraverso agli approfonditi studi progettuali ed estetici di esperti designer e professionisti del settore, fino a giungere all'insostituibile maestria dei nostri artigiani.

Da sempre SCAGLIONI dedica particolare attenzione alla consulenza, offrendo un servizio completo e personalizzato, dal progetto iniziale alla realizzazione, posa e manutenzione, grazie ad una rete di partner selezionati. I clienti trovano in SCAGLIONI le competenze più adatte a ogni esigenza, anche la più innovativa ed estrema.

Una vasta gamma di tessuti, trame e colori, un'ampia disponibilità di prodotti a magazzino, la rapidità delle spedizioni, coadiuvate da una rete capillare di selezionati rivenditori, completano il successo e pongono la SCAGLIONI s.r.l. tra i leaders del mercato nazionale ed internazionale.

SCAGLIONI SRL IS LEADING MANUFACTURER OF DECORATIVE CURTAIN RODS AND MANUALLY & MOTORIZED BLIND SYSTEMS.

The experience gained in over 30 years of work and the constant commitment in the evolution of the market, have led to the creation of more and more competitive and innovative products that have made our brand name synonymous with quality, design, technology and reliability.

SCAGLIONI shares its wide know-how and its renowned experience with professionals from all over the world, we satisfy their needs inspired by innovation and exclusivity, actively helping to achieve advanced proposals in both architectural and furniture fields.

SCAGLIONI's brand name is present with its products in many countries of the world where it has affirmed its undisputed prestige by contributing to the realization of projects in both residential and public fields.

"Quality" is the basis of all corporate's decisions in all phases of production: from the constant investment in the Research & Development study which guarantees innovation and technology, through the in-depth and aesthetical studies of expert designers and professionals, up to the incomparable mastery of our craftsmen.

SCAGLIONI has always dedicated great attention to consultation, offering a complete and customized service, from the initial project to the production and the final installation thanks to a selected list of partners. Customers always find in SCAGLIONI the most suitable solution to their needs even in the most innovative and amazing idea.

Wide range of fabrics, textures and colors, availability of products in stock, express shipping service supported by a network of selected retailers, distributors and wholesalers complete SCAGLIONI's success and put the company among the leaders of both domestic and international markets.

SERIE 122

STRUTTURA PER TENDA MINIRULLO

Componenti

- Supporti in alluminio
- Premontaggio in alluminio anodizzato e clips
- Comando catena e calotta lato opposto
- Palo avvolgitore in ferro zincato Ø 17 mm
- Fondale tondo Ø 10 mm con tappi
- Catena in plastica
- Catena in plastica continua per tessuti night & day
- Bloccacatena

STRUCTURE FOR MINI ROLLER BLINDS SYSTEM

Components

- Aluminium brackets
- Anodized pre-mounting profile with clips
- Chain control and end plug
- Galvanized iron winding rod Ø 17 mm
- Round bottom bar Ø 10 mm with end caps
- Plastic chain
- Continuous plastic chain for night & day fabrics
- Stop chain device

STRUTTURA PER TENDA MINIRULLO

Componenti

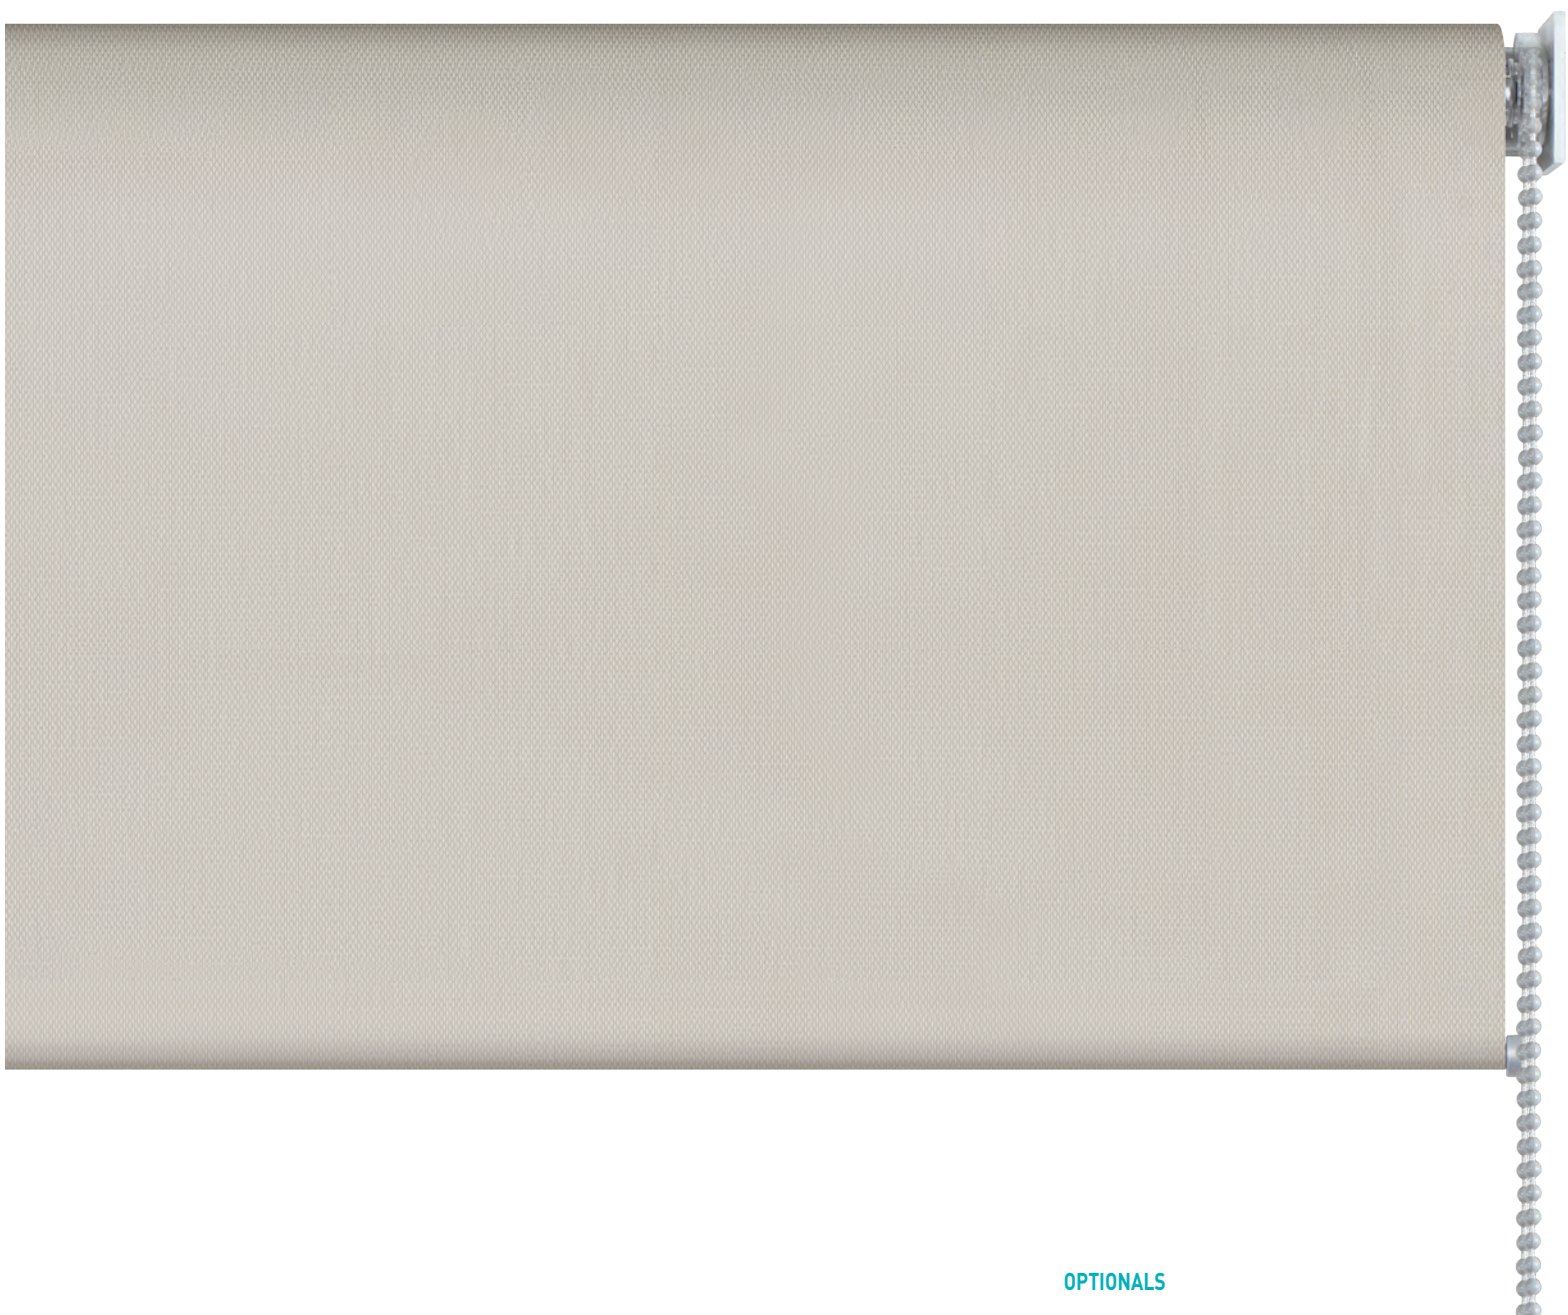

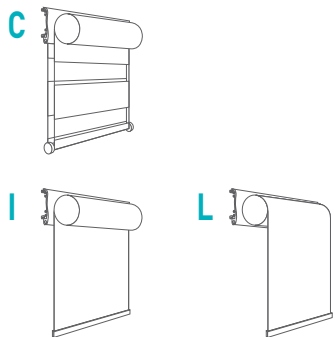

- Supporti in alluminio
- Premontaggio in alluminio anodizzato e clips
- Comando catena e calotta lato opposto
- Palo avvolgitore in ferro zincato Ø 17 mm
- Fondale tondo Ø 10 mm con tappi
- Catena in plastica
- Catena in plastica continua per tessuti night & day
- Bloccacatena

STRUCTURE FOR MINI ROLLER BLINDS SYSTEM

Components

- Aluminium brackets
- Anodized pre-mounting profile with clips
- Chain control and end plug
- Galvanized iron winding rod Ø 17 mm
- Round bottom bar Ø 10 mm with end caps
- Plastic chain
- Continuous plastic chain for night & day fabrics
- Stop chain device

SERIE

100 T

STRUTTURA PER TENDA A RULLO

Componenti

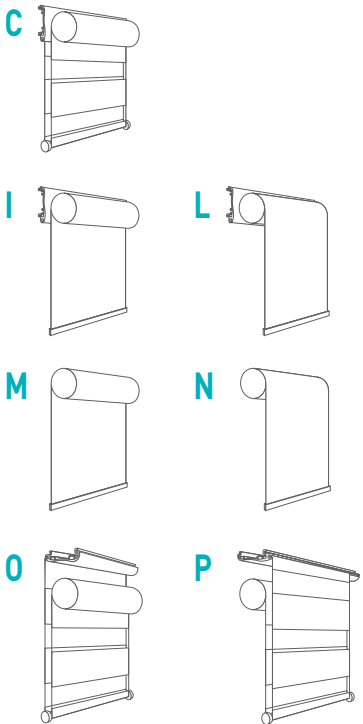

- Supporti in ferro con cover in plastica
- Comando a catena e calotta lato opposto
- Palo avvolgitore in alluminio anodizzato
- Fondale tondo Ø 20
- Catena in plastica con sgancio di sicurezza
- Bloccacatena

STRUCTURE FOR ROLLER BLINDS SYSTEM

Components

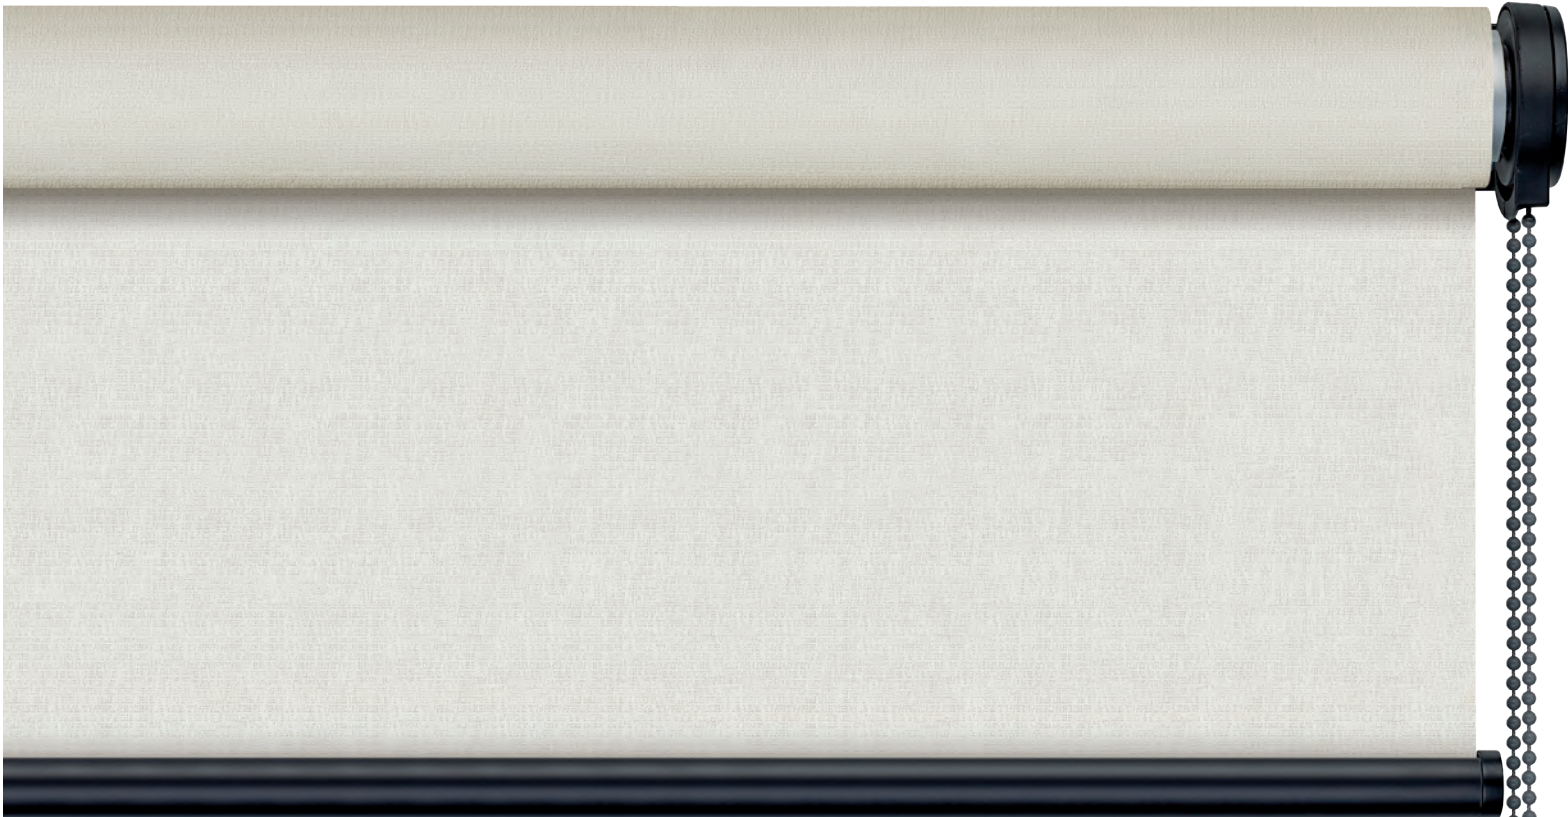

- Iron brackets with plastic cover
- Chain control and end plug
- Anodized aluminium winding rod
- Round bottom bar Ø 20
- Plastic bead chain with safety release
- Stop chain device

MINI ROLLER BLINDS

STRUTTURA PER TENDA A RULLO

Componenti

- Supporti in alluminio
- Comando a catena e calotta lato opposto
- Palo avvolgitore in alluminio anodizzato
- Fondale piatto 24 x 10 mm con tappi
- Catena in plastica con sgancio di sicurezza
- Bloccacatena

STRUCTURE FOR ROLLER BLINDS SYSTEM

Components

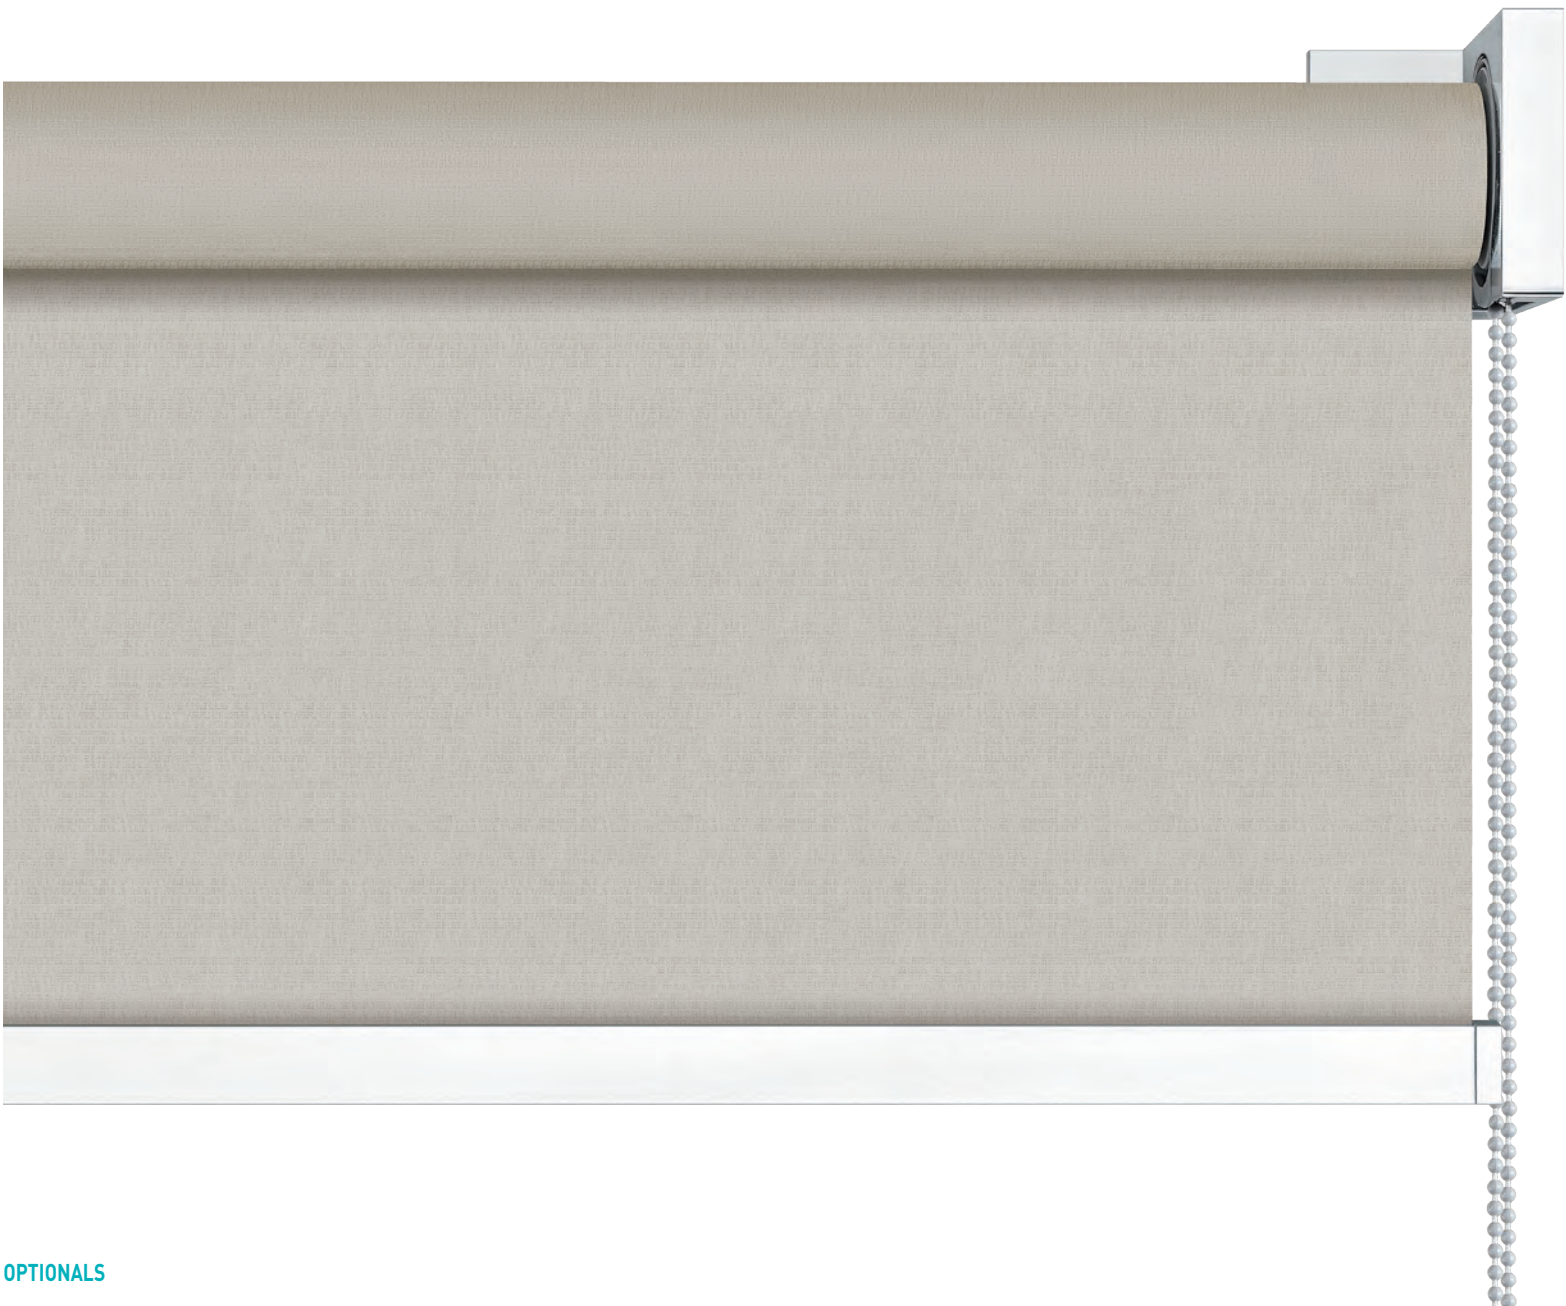

- Aluminium brackets
- Chain control and end plug
- Anodized aluminium winding rod
- Flat bottom bar 24 x 10 mm with endcaps
- Plastic bead chain with safety release
- Stop chain device

STRUTTURA PER TENDA A RULLO

Componenti

- Supporti in ferro con cover in plastica
- Comando a catena e calotta lato opposto
- Palo avvolgitore Ø 60 in alluminio anodizzato
- Fondale tondo Ø 20 mm con tappi
- Catena in plastica con sgancio di sicurezza
- Bloccacatena

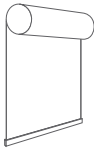

STRUCTURE FOR ROLLER BLINDS SYSTEM

Components

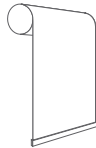

- Iron brackets with plastic cover
- Chain control and end plug
- Anodized aluminium winding rod Ø 60
- Round bottom bar Ø 20 mm with endcaps
- Plastic bead chain with safety release
- Stop chain device

HEAVY DUTY BLINDS

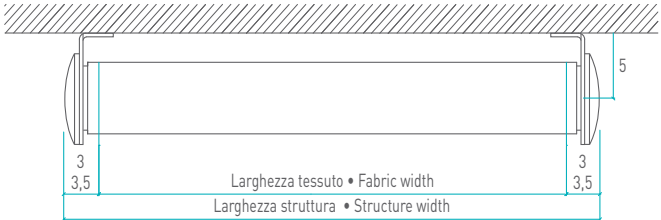

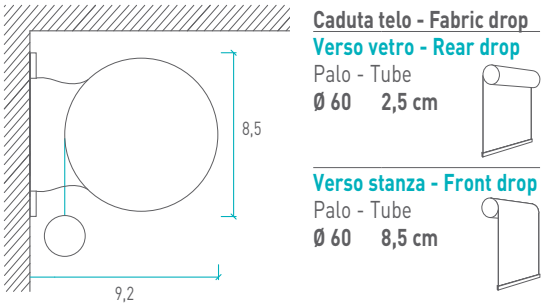

Le sempre nuove esigenze abitative e d’arredo moderno ci hanno spinto a realizzare nuove strutture idonee a grandi dimensioni (fino a 350 cm), conservando tuttavia fluidità d’impiego. Per garantire ineguagliabile linearità e morbidezza di salita e discesa, abbiamo studiato una meccanica diretta 1/1 con doppia molla di compensazione che, unita al palo in alluminio anodizzato Ø 60 e lato folle con cuscinetti a sfera, permetterà di modulare i giochi di luce più adatti alle esigenze e all’arredo della vostra abitazione o spazio lavorativo.

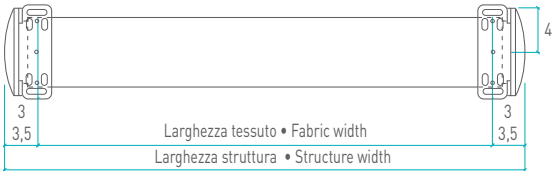

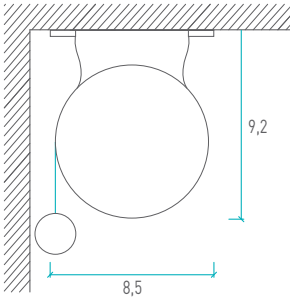

In modern architecture there is more and more demand of larger windows. We created new structures suitable for large dimensions (up to 350 cm). In order to guarantee an incomparable linearity and smoothness of ascent and descent, we have studied a new direct chain control 1/1 with double compensation spring which, combined with the new anodized aluminium pole Ø 60 and the opposite side with ball bearings, will allow you to easily modulate the sunlight.

**Sistema a rullo SUPREME 01-02**

Viene utilizzato per tende di grandi dimensioni che possono raggiungere un massimo di 20 metri di larghezza e 5,80 di altezza.

Questo sistema è costituito da una guida laterale dove viene fissato il motore e il tubo avvolgitore della tenda che funge anche da fondale.

Nella parte superiore invece, troviamo una guida fissa che sostiene il tessuto. Per l'installazione di questa tenda, il soffitto deve essere perfettamente piatto in modo da non creare pieghe durante l'avvolgimento o lo svolgimento della tenda.

Un rivoluzionario sistema che semplifica la posa e il trasporto di tende di grandi dimensioni.

Il tessuto dedicato per questa collezione è il SUNSCREEN SATINE' 5500 disponibile in oltre 17 varianti di colore

**System SUPREME 01-02**

Used for large blinds, which can reach a maximum of 20 meters in width and 5,80 in height. This system consists of a lateral guide where the motor and the roller blinds tube of the curtain are fixed, which also acts as a bottom bar.

In the upper part, instead, we find a fixed guide that supports the fabric. For the installation of this curtain, the ceiling must be perfectly flat so as not to create creases when rolling up or unrolling the curtain.

A revolutionary system that simplifies the installation and transport of large blinds.

The fabric dedicated to this collection is SUNSCREEN SATINE '5500 available in over 17 color variations.

Quotazioni su richiesta - Quotations on request

**Kit copri guida**

La guida laterale può essere incassata nel cartongesso, in alternativa è possibile ordinare il kit copriguida disponibile bianco opaco o alluminio satinato.

**Cover kit**

The side guide can be built into the plasterboard, alternatively you can order the cover kit available in matt white or satin aluminum.

**SUPREME 01** - Tessuto / Fabric h. max 2,90 mt

**SUPREME 02** - Tessuto / Fabric h. max 5,80 mt

# RULLI PER ESTERNI OUTDOOR ROLLER BLINDS

## HORIZONTAL

SERIE 500

PAG. 130

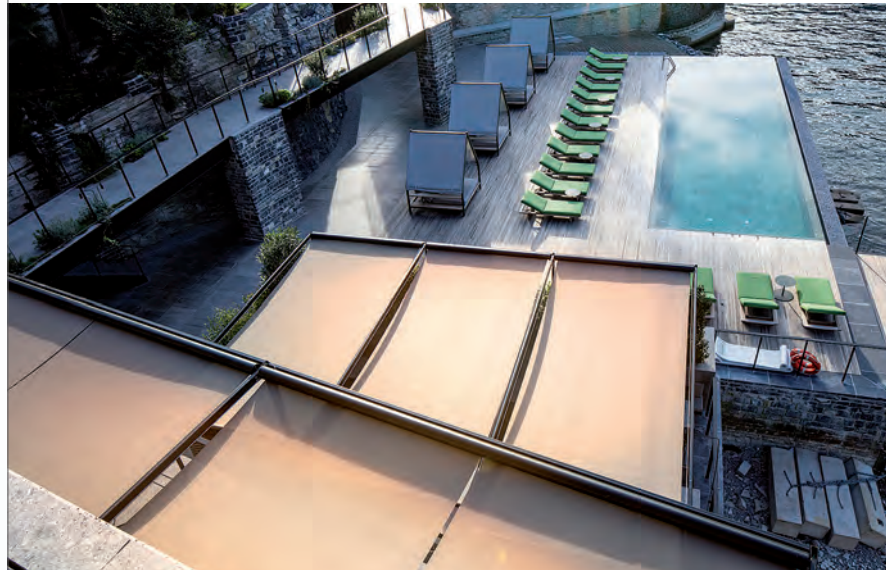

Photo by Fabio di Carlo

**Scaglioni**

L'innovativo sistema di trazione forzata del telo tramite pistone a gas permette di utilizzare la struttura per tenda a rullo in orizzontale o in obliquo in modo elegante e poco invasivo.  
Tessuti consigliati:  
Sunscreen satine 5500'  
Soltis 92 performance  
Rio.

The innovative forced traction mechanism guarantee exceptional fabric tension by gas pistons. this roller blinds can be used horizontally or inclined, in an elegant and not invasive way.  
Recommended fabrics:  
Sunscreen satine 5500'  
Soltis 92 performance  
Rio.

STRUTTURA PER TENDA PACCHETTO

Componenti

- Supporti in ferro con copertura in alluminio finitura 73
- Comando catena e calotta lato opposto
- Palo avvolgitore in alluminio anodizzato
- Bobine avvolgifilo con sgancio rapido per facile manutenzione
- Mantovana in alluminio 60 x 15 mm con tappi (cm 10 oltre la struttura)
- Barra velcrata in alluminio anodizzato con sgancio a pressione (cm 3 piu stretta della struttura uguale alla larghezza della tenda)
- Fondale piatto a scomparsa 30 x 4 mm in alluminio anodizzato (cm 4 piu stretto della struttura)
- Catena in plastica grigia con sgancio di sicurezza
- Filo tiratenda da 0,8 mm e clip bloccafilo (cm 320 per ogni bobina), a richiesta fettuccia da 4 mm
- Montaggio a parete o soffitto (da specificare)
- Bloccacatena

STRUCTURE FOR ROMAN BLINDS

Components

- Iron brackets with aluminium cover in fin. 73
- Chain control and end plug
- Anodized aluminium winding rod
- Reel with quick release for easy maintenance
- Aluminium valance 60 x 15 mm with endcaps (cm 10 wider than the overall structure)
- Anodized aluminium velcro carrier with snap release (3 cm shorter than the width of the structure, same length as the blind)
- Anodized aluminium rollaway flat bottom bar 30 x 4 mm (4 cm shorter than the width of the structure)
- Grey bead plastic chain with safety child release
- Lift cord in 0,8 mm and block wire clip (320 cm for each reel) on request ribbon in 4 mm
- Wall or ceiling installation (to be specified)
- Stop chain device

STRUTTURA PER TENDA  
A PACCHETTO A VETRO

- Supporti in plastica grigio
- Comando a corda
- Cadute con sgancio rapido per facile manutenzione
- Bloccaggio con ingranaggio in ottone con sgancio rapido
- Barra velcrata in alluminio anodizzato
- Fondale piatto a scomparsa 30 x 4 mm in alluminio anodizzato (cm 1 piu stretto della struttura)
- Fondale a vista 24 x 10 mm con tappi finitura 73 (misura uguale alla barra velcrata piu tappi 8 mm)
- Filo tiratenda da 1,0 mm e clip bloccafilo (cm 250 per ogni caduta)
- Montaggio a parete

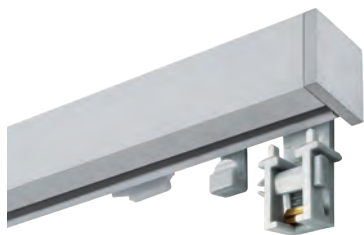

STRUCTURE FOR WINDOW  
ROMAN BLINDS

- Grey plastic brackets
- Cord control
- Drop cord with quick release for easy maintenance
- Brass block wire with easy release
- Anodized aluminium velcro carrier
- Anodized aluminium rollaway flat bottom bar 30 x 4 mm (1 cm shorter than the width of the structure)
- Flat bottom bar 24 x 10 mm with endcaps in finishing 73 (same width of the velcro carrier plus endcaps 8 mm)
- Lift cord in 1,0 mm and block wire clip (250 cm for each drop)
- Wall installation

ANGOLARE ESTERNO

Componenti

- Profilo 100 x 15 mm
- Finale angolare
- Profilo laterale 120/150/200 mm (da specificare nell'ordine)
- Supporti

EXTERNAL CORNER

Components

- Profile 100 x 15 mm
- Corner finial
- Side profile 120/150/200 mm (to be specified when ordering)
- Brackets

ANGOLARE INTERNO

Componenti

- Profilo 100 x 15 mm
- Finale
- Profilo laterale 120/150/200 mm (da specificare nell'ordine)
- Supporti

INNER CORNER

Components

- Profile 100 x 15 mm
- Finial
- Side profile 120/150/200 mm (to be specified when ordering)
- Brackets

LINEARE

Componenti

- Profilo 100 x 15 mm
- Finale
- Supporti 120/150/200 mm (da specificare nell'ordine)

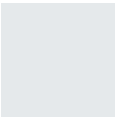

LINEAR

Components

- Profile 100 x 15 mm
- Finial
- Brackets 120/150/200 mm (to be specified when ordering)

# TaHoma rivoluziona il modo di collegare i dispositivi tra loro: senza fili! TaHoma revolutionises the way of connecting different control devices: wireless!

## Google Assistant

"Ok, Google, controlla i dispositivi domestici con la voce!"

Tutti i dispositivi che integrano Google Assistant sono compatibili con TaHoma

## Amazon Alexa

"Chiedi ad Alexa! Controlla i tuoi dispositivi domestici con la voce chiedendo ad Alexa!"

Tutti i dispositivi che integrano l'assistente vocale Amazon Alexa sono compatibili con TaHoma.

## IFTTT

### IFTTT

Avvia automaticamente i tuoi scenari da altri prodotti e servizi. È possibile, ad esempio, configurare gli automatismi per avviare uno scenario in caso di pioggia (il servizio meteo rileva la pioggia nella vostra zona) o in caso di rilevamento di CO<sup>2</sup> (tramite la vostra stazione meteo).

### IFTTT

Tutti i prodotti e servizi che collaborano con IFTTT sono compatibili con TaHoma tramite IFTTT (solo per il lancio di scenari).

TaHoma®

| Si consiglia il montaggio del bloccacatena in dotazione<br>per evitare di danneggiare il tessuto                                                                                                | It is recommended the use of the stop chain provided<br>to avoid damages to fabrics                                                                                                                          |

IMPIEGO TESSUTI GIRATI

Vi ricordiamo che l'impiego del tessuto girato, ove consentito, può dare come effetto delle ondulazioni sulla larghezza della struttura date dall'avvolgimento del tessuto in senso opposto allo standard. Tali ondulazioni, poco visibili con luce naturale ma più evidenti con quella artificiale, non saranno pertanto da ritenersi un difetto ma solo una caratteristica dell'impiego.

USE OF INVERTED FABRICS

We remind you that where possible you can invert the width and height sides but this leads to a wave effect due to the opposite winding direction of the fabric compared to the standard one. This effect is much more visible with artificial than natural light and must be considered a normal characteristic and not a defect.
